Greetings,

My name is Dr Anthony Herro, and on behalf of Dental on Central thank you for taking time to read about our practice. Dental on Central is a multidisciplinary dental practice that prides itself on caring for the oral health of patients with special needs, including mental and physical disabilities, autism and behavioral syndromes, high anxiety patients and medically compromised patients. We are committed to helping our most vulnerable patients by listening to and understanding their individual needs.

We take a team approach to all oral health care, which includes multiple specialists, physicians, general dentists, nurses, hygienists and auxiliary staff. Many members of our team along with myself, are faculty at the Arizona School of Dentistry and Oral Health. This multidisciplinary approach to our patients' care and treatment provides a great deal of benefits to our patients and their caregivers.

We are highly experienced in completing large treatment plans condensed into as few appointments as necessary typically with IV Sedation or General Anesthesia within our dental office. This is much less expensive and much more convenient than other options, while offering the highest levels of safety and care.

Our office is conveniently located at Central Avenue, just north of Camelback Road. We are open six days a week and accept most insurances and AHCCCS plans. I have enclosed a pamphlet that describes our practice and services for patients with special needs.

It is our intention to support your efforts and become the dental home for the people in your care. Please don't hesitate to contact our office with any questions or concerns you may have. I look forward to working with you.

A handwritten signature in black ink, appearing to read 'Anthony Herro', with a long horizontal flourish extending to the right.
